DETAILED ACTION

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

1. Claims 14, 23, and 54 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of Claim 1 of copending Application No. 09/859,929. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

2. Claim 34 is provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of Claim 4 of copending Application No. 09/859,929. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

The Applicant is noted that the dependent Claims 11-35 of Application No. 09/859,929 and dependent Claims 71-94 of Application No. 09/297,289 are very similar in content

Art Unit: 2841

as well, and depend on the provisionally rejected independent Claims of the above rejections.
